

Aperio™ designs for glass door applications

Architectural glass solutions with Aperio™ wireless lock technology

Whether in business or multi-residential buildings, ASSA ABLOY's architectural solution for glass are installed all over the world. Modern glass meeting rooms and office doors can now be equipped with wireless access control devices while maintaining aesthetics.

ASSA ABLOY's Aperio™ Technology allows access control providers around the globe to integrate non-wired doors with mechanical locks into access control systems in a cost effective way.

ASSA ABLOY

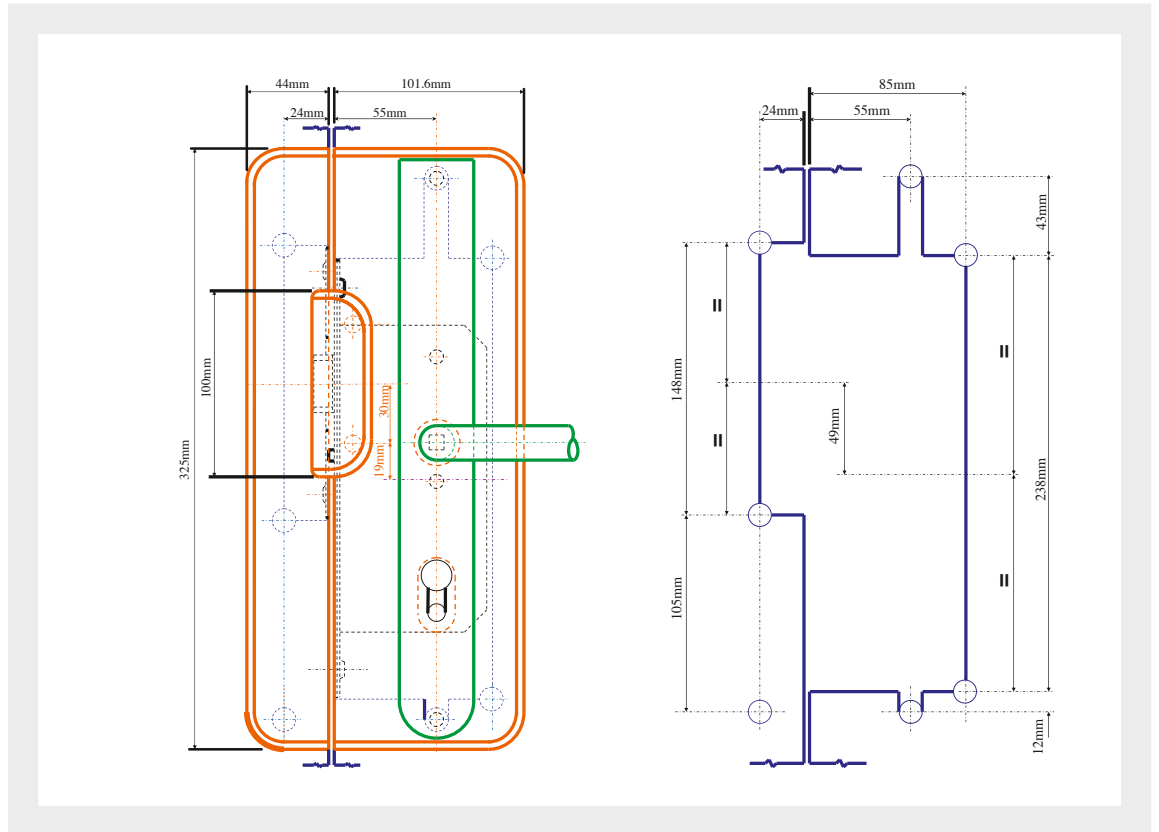

The global leader in
door opening solutions
